Mrs. L. B. Desper Tells How  
Tanlac Helped Her Back  
to Health.

Louisville, Ky., Dec. 28.—For many years Mrs. L. B. Desper suffered from a catarrhal affection of the stomach, until she began taking Tanlac, the premier remedy. She lives at 205 West Walnut street, this city, and recently added her indorsement to the praise hundreds of Louisville residents have given to the remedy.

"I have been taking Tanlac about ten days for rheumatism and catarrh of the stomach," she said. "Before I began taking it my digestion was poor. Gas formed on my stomach after every meal. I was nervous and tired, and had to sit down after any exertion to rest. Noise or excitement gave me palpitation of the heart.

"Tanlac proved to be just what I needed. I began improving as soon as I started taking the first bottle. I feel fine now—sleep well, eat all I want without any bad effects, and am not nervous, as I used to be. I feel a new person."

In cases of stomach, liver and kidney troubles Tanlac has been tested repeatedly and has proved of remarkable value. It is a proven source of relief, as is shown by the many testimonials voluntarily offered by those who have found it the gateway to renewed health.

Tanlac is now being sold in Columbia at the Page & Taylor drug store. Adv.

William Hobson, Campbellsville, is putting in a singletree and neck yoke factory on the farm of J. D. Patterson, near Picnic.

J. C. Wooten, Sparksville, did business here last Wednesday.

J. V. White, of Columbia, was here Thursday selling churns. Mr. White has sold a number of churns in this section during the past few years and everyone of them have given perfect satisfaction. And the user's contend that Mr. White handles the best churn now on the market.

Z. A. Hayes, Sparksville, did business here one day last week.

Rev. Joe Stotts has removed from the Royse farm to the new house he has recently erected near the store of Janes & Claywell.

Isn't it getting about time that Adair county is buying a poor farm and arranging to keep her paupers upon a more economical basis? According to the list of claims just published which were allowed at the last term of the last term of the Fiscal Court it has cost the county the sum of \$2017.50 to keep her paupers for six months. According to these figures it costs \$4035.00 per year for this expense alone. This sum would buy a pretty good

farm. Another like sum would erect the necessary buildings. This could be paid in two years and then the farm certainly would become self-sustaining and the great weight would be lifted from the shoulders of the tax payers. We would be glad to have an exchange of opinions upon this subject and I am sure that the News will gladly open its columns for such a discussion.
